Research Articles

1.

Biodiversity Conservation Strategies in Urban Landscapes: A Case Study from Kuala Lumpur and Manchester

Li Wei Chen, Amara Basu, Ingrid Müller, João Pereira, Lars Savchenko, Sofia Persson, Roberto Taylor

Keywords: Biodiversity, Urban Landscapes, Conservation Strategies, Green Infrastructure, Kuala Lumpur, Manchester, Urban Planning

2.

Efficacy of *Coriandrum sativum* L. Essential Oil as Antidiabetic

, Sergiy Polishchuk, Hans Dubois, Sarah Ouedraogo

3.

Analysts' earnings forecasts using of Multi-layer Perception in compare to Radial Basis Function

Alberto Watanabe, Victoria Meyer, Sofia Wilson, Louis Kobayashi

Keywords: Earnings Forecasting; Multi-layer Perceptron; Radial Basis Function; Data Mining; Financial Analysis; Neural Networks

4.

Growth Patterns of Alpine Flora in Response to Climate Variability

, Alberto Bianchi, Hong Moreau, Chidi Ferrari

5.

Impact of Urban Green Spaces on Biodiversity and Ecosystem Services

Carlos Mendez, Aisha Tanaka, Li Wei, Pierre Hoffmann, Kwame Ramírez

Keywords: Urban Green Spaces; Biodiversity; Ecosystem Services; Urban Ecology; Environmental Management; Sustainable Cities

6.

Chemical Mobility and Mineralogical Variability in the Micaschists of the Edough Massif (Annaba, Northeast Algeria)

Peter Fischer, James Tkachenko, Julia Roux, James Tkachenko, Julia Roux

Keywords: Micaschists, Edough Massif, Metamorphism, Mineralogy, Chemical Mobility, Algeria, Garnet

7.

Entropy Generation in a Slip Boundary Layer Flow over a Stretching Surface with Suction/Injection and Nanoparticles in the Flow

Klaus Kone, José Romano, José Romano

Keywords: Entropy Generation; Boundary Layer; Slip Condition; Nanoparticles; Brownian Motion; Thermodynamics; Stretching Surface
